Friendswood Fall Haul set for Nov. 14, with electronics recycling and shredding

The city lists an 8 a.m.–1 p.m. cleanup at Centennial Park, with electronics recycling and document shredding from 8 a.m. to noon or until the truck is full. Paper is limited to 200 pounds per vehicle.

By Marcus Bennett

Friendswood's Fall Haul is scheduled for Saturday, November 14, 2026, from 8 a.m. to 1 p.m. at Centennial Park, 2200 S Friendswood Drive. The city's event page lists electronic recycling and document shredding among the cleanup services, giving residents a chance to check what they can bring before setting out.

The page labels electronic recycling "NEW!" and lists desktop and all-in-one computers, laptops, monitors, tablets, gaming devices, servers and cell phones. It also includes electronic accessories, phone and intercom systems, stereo equipment, radios, DVD and Blu-ray players, power banks, battery backups, lead-acid batteries, surge protectors, extension cords and cables. The city's list names HDMI, CAT wire, ROMEX wire and power cords as examples.

Shredding is scheduled from 8 a.m. until noon, or until the truck is full. The limit is 200 pounds of paper per vehicle. The city says the shredding service cannot take three-ring binders, cardboard, floppy disks, hanging file folders, microfiche, newspapers or videotapes. Residents with a large paper load may want to consider the per-vehicle limit and the earlier end time for shredding when planning their visit.

The broader cleanup accepts metal, old appliances, old furniture, plastic, tree limbs and wood, as well as grass clippings and unwanted wood, metal and plastic. Cement items and bricks are not accepted. The city also says it will not accept hazardous waste, including tires, paint and oil. Do not treat the electronic-recycling list as permission to bring other unlisted waste; check the city's full instructions if unsure about an item.

The event is organized by Keep Friendswood Beautiful. The city page lists the Parks and Recreation Department at 281-996-3220 for questions and says residents can register online to volunteer for Fall Haul.
